

Poster

-
- 1 **Akasaka, Shuichi**; Tokyo Institute of Technology
Takumi Uchiyama, Koichi Saito, Shigeo Asai, Masao Sumita
Correlation between internal friction and sound absorption coefficient of panel-type sound absorber
-
- 2 **Amir, Ihssan**; Slovak University of Technology
Ivan Hudec, Miroslav Ondas
Influence of time-temperature conditions of vulcanization on adhesion of polyester cords to rubber and crosslinking structure of rubber matrix
-
- 3 **Asai, Shigeo**; Tokyo Institute of Technology
Tsubasa Kano, Shuichi Akasaka, Masao Sumita
Dynamic percolation under electric field in carbon-black-filled conductive polymer composites
-
- 4 **Assmann, Ulrike**; Deutsches Institut für Kautschuktechnologie e.V. (DIK)
Robert H. Schuster
Electrospun nanofibres as reinforcing agent in rubber matrices
-
- 5 **Brandt, Katharina**; Deutsches Institut für Kautschuktechnologie e.V. (DIK)
Robert H. Schuster
Einfluss der Fasermorphologie auf die mechanischen Eigenschaften von NBR-Cellulose-Kompositen
-
- 6 **Busse, Leif**; Deutsches Institut für Kautschuktechnologie e.V. (DIK)
Andre LeGal, Ning Zhang, Manfred Klüppel
Sliding elastomers on solid substrates-friction simulation with fractal parameters in comparison to measurement
-
- 7 **Das, Amit**; Leibniz-Institut für Polymerforschung Dresden e.V.
K.W. Stöckelhuber, R. Jurk, G. Heinrich
Rubber reinforcement by layered silicates and carbon nanotubes
-
- 8 **Doniga-Crivat, Mircea**; Deutsches Institut für Kautschuktechnologie e.V. (DIK)
Jörn Ihlemann
Selbstorganisationsprozesse als Erklärungsansatz für das mechanische Verhalten von Gummimaterialien
-
- 9 **Favier, Arnaud**; 01dB-Metravib
A single testing instrument for multiple capabilities
-
- 10 **Freund, Michael**; Deutsches Institut für Kautschuktechnologie e.V. (DIK)
Jörn Ihlemann
The concept of representative directions
-
- 11 **Friehmelt, Rainer**; Evonik Degussa GmbH
Werner Niedermeier
Fumed silica as a filler for specialty polymers
-
- 12 **Früh, Thomas**; Rhein Chemie Rheinau GmbH
Thomas Alshuth, Ulrich Giese, Manfred Klüppel, Thorsten Brüger, Andreas Schröder, Erich Schmidt
Extension of service life of dynamic heavily loaded high performance elastomers
-
- 13 **Furukawa, Mutsuhisa**; Nagasaki University
Masahiro Kawashima, Suguru Motokucho, Ken Kojio
Phase structure and mechanical properties of poly(tetrahydrofuran)-block-poly-(2-ethyl-2-oxazoline) triblock copolymers
-
- 14 **Goda, Tibor**; Budapest University of Technology and Economics
László Pálfi, Károly Váradi, Enrique Garbayo, J.M. Bielsa
FE prediction of the hysteretic component of rubber friction: Importance of the Maxwell parameters
-
- 15 **Hahn, Anne**; Laser Zentrum Hannover e.V.
Christin Menneking, Stephan Barcikowski
Novel functionalised laser generated nanoparticles for innovative polymers
-
- 16 **Hishikawa, Yasuhiro**; Technical Research Center, Toyo Tire & Rubber Co., Ltd.
Hiroyasu Funahashi, Masaaki Kojima, Kenji Komamizu
Dependence of wear characteristics of tire tread compounds on frictional severity
-
- 17 **Hudec, Ivan**; Slovak University of Technology
Gabriela Kyselá, Jozef Feranc, Juma Haydary
Pyrolysis of rubber scrap
-
- 18 **Jacobi, Marly Maldaner**; Universidade Federal do Rio Grande do Sul
Adriana Nicoline
Effect of composition and curing systems on final properties of dynamically vulcanized PP/EPDM blends
-
- 19 **Jaunich, Matthias**; BAM Bundesanstalt für Materialforschung und-prüfung
Wolfgang Stark, Bernhard Hoster
In-situ vulcanization monitoring by ultrasonic wave propagation
-

-
- 20 **K. de A. Schneider, Luciane**; Deutsches Institut für Kautschuktechnologie e.V. (DIK) / Universidade Federal do Rio Grande do Sul
Marly M. Jacobi, Robert H. Schuster
Continuous dynamic latex compounding rubber-clay nanocomposites
-
- 21 **Kaplan, Cihan; Misiun, Anna**; Deutsches Institut für Kautschuktechnologie e.V. (DIK)
Sören Schmid, Harald Geisler Robert H. Schuster
Plasma surface treatment for improved adhesion in rubber-metal and rubber-polyolefine bonding
-
- 22 **Klauke, Rainer S.**; Deutsches Institut für Kautschuktechnologie e.V. (DIK)
Jörn Ihlemann
New aspects of lifetime predictions for inelastic and anisotropic materials
-
- 23 **Knospe, Alexander**; Plasmatrete GmbH
Thomas Beer, Kay Fehling
Activating and coating by means of atmospheric-pressure plasma
-
- 24 **Köppen, Hannah**; RWTH Aachen
Edmund Haberstroh, Walter Michaeli
Compoundierung von Silicamischungen in einem Doppelschneckenextruder
-
- 25 **Kruželák, Ján**; Slovak University of Technology
Gabriela Kyselá, Ivan Hudec, Rastislav Dosoudil
Properties and network structure of elastomeric magnetic composites
-
- 26 **Kurzidim, Fabian**; Deutsches Institut für Kautschuktechnologie e.V. (DIK)
Robert H. Schuster, Harald Geisler, Edmund Haberstroh
Einfluss der Extrusionsparameter auf die Eigenschaften thermoplastischer Vulkanisate
-
- 27 **Le-Hong, Hai**; Martin-Luther Universität Halle-Wittenberg
Z. Ali, S. Ilisch, H.-J. Radusch
Exfoliation of nanoclay in rubber blends - an online characterization method
-
- 28 **Lorenz, Hagen**; Deutsches Institut für Kautschuktechnologie e.V. (DIK)
Manfred Klüppel
Microstructure-based modelling of the mechanical behavior of filled elastomers
-
- 29 **Lückmann, Matthias**; Deutsches Institut für Kautschuktechnologie e.V. (DIK)
Harald Geisler, Sören Schmid, Robert H. Schuster
Nanotechnological modification of elastomer surfaces
-
- 30 **Mahaling, R. N.**; Leibniz-Institut für Polymerforschung Dresden e.V.
G. Heinrich
Zinc ion coated nanosilica: a novel way of rubber reinforcement
-
- 31 **Mc Namara, John**; Dublin Institute of Technology
Thomas Alshuth, Stephen J. Jerrams
An investigation of thermal build-up in elastomeric specimens fatigue tested to failure
-
- 32 **Mora-Barrantes, Irene**; Instituto de Ciencia y Tecnología de Polímeros, CSIC
J.L. Valentin, K. Sallwächter, L. Ibarra, A. Rodriguez, L. González
A novel modification method of silica. Influence in rubber-filler and filler-filler interactions.
-
- 33 **Morozov, Ilya**; Institute of continuous media mechanics UB RAS
Bernd Lauke
Examination of carbon black network of rubber by means of computer visualisation
-
- 34 **Möwes, Markus M.**; Deutsches Institut für Kautschuktechnologie e.V. (DIK)
Manfred Klüppel, Robert H. Schuster
Combined dielectric and rheological investigations on polymer nanocomposites
-
- 35 **Murphy, Niall M.**; Centre for Elastomer Research (CER) – Dublin Institute of Technology
John F. Hanley, Stephen J. Jerrams
Equi-biaxial testing of EPDM- The effect of pre-stressing on fatigue life
-
- 36 **Narathichat, Maswane**; Prince of Songkla University
C. Nakason, C. Kummerlöwe, N. Vennemann, K. Sahakaro
Thermoplastic vulcanizates and simple blends based on expoxidized natural rubber and polyamide-12 blends
-
- 37 **Navarro Torrejón, Yolanda**; Deutsches Institut für Kautschuktechnologie e.V. (DIK)
Ulrich Giese, Robert H. Schuster
Characterization of p-phenylenediamine consumption in rubbers during oxidative aging
-
- 38 **Nicinski, Karol**; Institute for Engineering of Polymer Materials & Dyes at Torun
Jan Mezynski, Marek Tulik
Vegetable oils as a components of rubber compounds
-
- 39 **Reincke, Katrin**; Martin-Luther Universität Halle-Wittenberg
Christian Jäger, Jörg Friedel, Wolfgang Grellmann
Influence of process oils on physical properties of elastomers
-

-
- 40 **Robin, Stefan**; Deutsches Institut für Kautschuktechnologie e.V. (DIK)
Thomas Alshuth
Anwendung der hochauflösenden Computertomografie zur Untersuchung von Elastomeren und Elastomerbauteilen
-
- 41 **Ronan, Stephen**; Dublin Institut of Technology (DIT) / Deutsches Institut für Kautschuktechnologie e.V. (DIK)
Marcus Santoso, Thomas Alshuth, Ulrich Giese, Stephen Jerrams, Robert H. Schuster
The effect of thermal oxidation on the stress relaxation of natural rubber and life time prediction
-
- 42 **Stanek, Michal**; Tomas Bata University in Zlin, Faculty of Technology, Department of Production Engineering
Miroslav Manas, David Manas
Influence of mold cavity surface quality on fluidity of rubber compounds
-
- 43 **Steinke, Timo**; Deutsches Institut für Kautschuktechnologie e.V. (DIK)
Robert H. Schuster
Synthesis and functionalization of superparamagnetic nanoparticles for new polymeric materials
-
- 44 **Stöckelhuber, Klaus Werner**; Leibniz-Institut für Polymerforschung Dresden e.V.
Amit Das, René Jurk, Gert Heinrich
Surface-energetic properties of filler particles and elastomers
-
- 45 **Suwannachit, Anuwat**; Gottfried Wilhelm Leibniz Universität Hannover
Udo Nackenhorst
A multi-scale approach on the transient dynamics of rolling tires
-
- 46 **Thust, Torsten**; Deutsches Institut für Kautschuktechnologie e.V. (DIK)
Ulrich Giese, Robert H. Schuster
Two component injection moulding: Influence of process parameters and material properties on the adhesive strength of plastic/rubber composites
-
- 47 **Trost, Winfried**; Uth GmbH
Straineranwendungen mit Zahnradextrudern
-
- 48 **Vennemann, Norbert**; University of Applied Sciences Osnabrück
K. Bökamp, A. Haakmann, R. Mattern, A. Siebert
Thermal conductivity and viscoelastic properties of siliceous earth filled polychloroprene (CR) compounds
-
- 49 **Westermann, Kira**; RTWH Aachen
Walter Michaeli, Edmund Haberstroh
Evaluation of the use of water as blowing agent in rubber extrusion
-
- 50 **Zabel, Mathias**; Deutsches Institut für Kautschuktechnologie e.V. (DIK)
Katharina Brandt, Robert H. Schuster
Nanocomposite - Cellulose fibres in Rubber
-
- 51 **Ziser, Torsten**; Rhein Chemie Rheinau GmbH
Thomas Früh
Organische Nanoadditive für Brennstoffzellen
-
